

EcoKwik

A Quality You Can Always Trust

No More Pins, Clips or Tape

Elastic Low Compression Bandage with Velcro Closure

Easy-to-use Velcro Closure at both ends

No More Pins, Clips or Tape

Elastic Low Compression Bandage with Velcro Closure

EcoKwik is a latex-free, orthopedic grade knitted bandage that wraps and secures easily. It provides patient comfort and is durable enough to be used again and again. EcoKwik's front closure anchors the bandage on the first wrap quickly and easily. Its end closure conveniently secures the bandage at any given point without pins, clips or tape. It offers latex-sensitive patients and health professionals an alternative to latex rubber elastic bandages to help prevent possible future latex sensitization.

Front Closure

End Closure

Features

- Latex-free
- Requires no pins, clips or tape
- Unique knitted construction provides superior absorbency and breathability.
- Double closure delivers maximum control and consistent compression.

Applications

- For use in Hospitals, Physician Offices, Industrial Health, Sports Medicine, Long Term Care, Home Health, School Health and Burn Units.
- For controlled and consistent compression and support.
